

PERFECT RUST REMOVAL

Gemway removes rust by a shot blasting machine, ensures efficiency in production, and reduces production delivery times.

Gemway's rust removal improves the adhesive power of steel surfaces, and

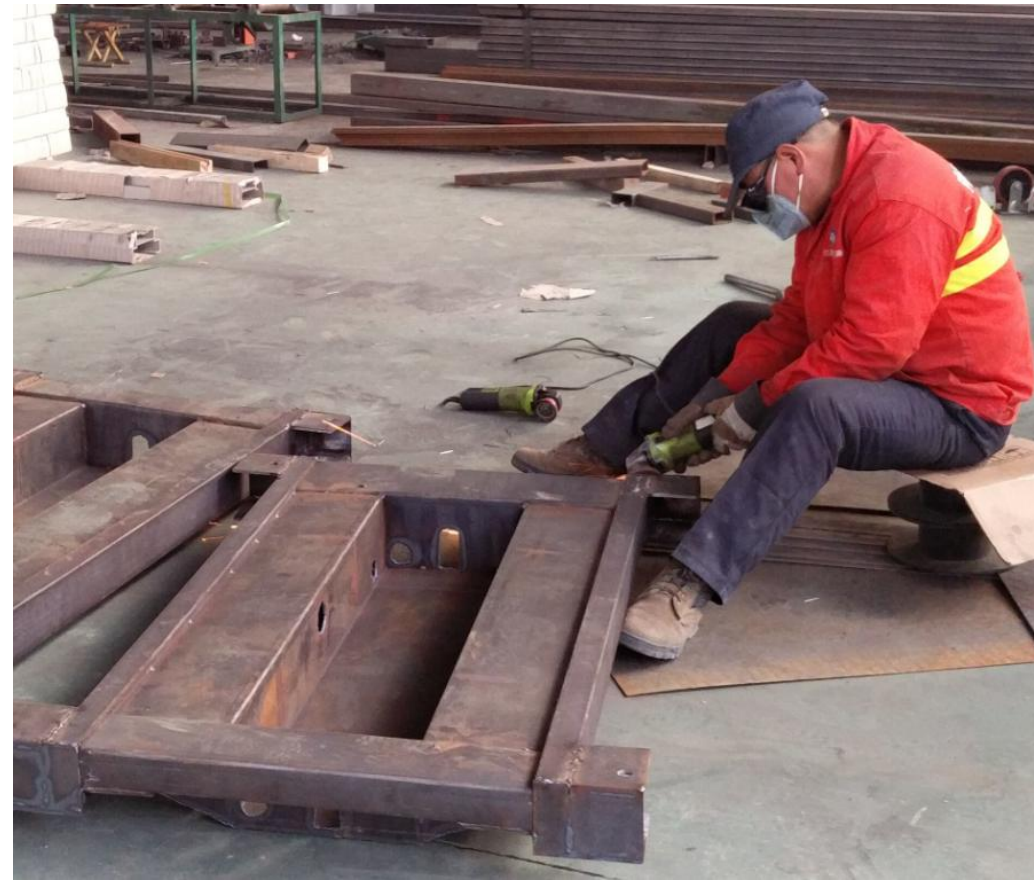

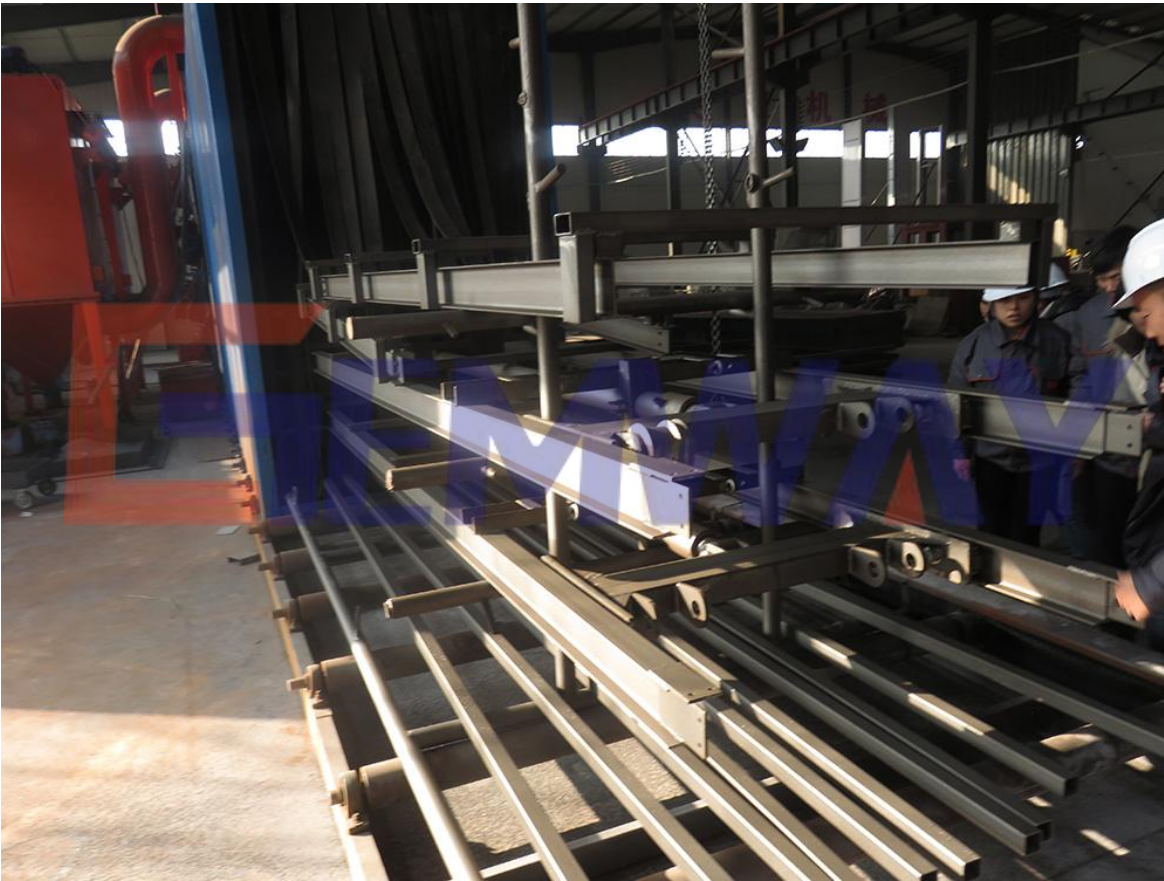

Gemway ensures precision so that every detail of our products is perfect.

PERFECT RUST-REMOVING

Shot-Blasting Process

VS

Manual De-Rusting Process

Shot-blasting devices remove rust in large quantities in one go, which improves efficiency and saves costs for our customers.

Workers clean rust little by little, which requires additional time and cost.

Gemway ensures precision so that every detail of our products is perfect.

Shot-Blasting (Finished)

VS

Manual De-Rusting (Finished)

Rust cleaning by shot blasting is uniform and complete.

Rust cleaning by manual labor is varied and incomplete.

Gemway wants to make every detail perfect – this is the intrinsic value behind each of our products.
